

Eyewash Bottle – 250ml with Eye Bath Top

Specification Sheet

Product Description:

This 250ml Eyewash Bottle is designed for quick and effective eye irrigation in case of chemical exposure, dust, or debris entering the eye. It includes a removable eye bath top that fits comfortably around the eye socket to direct the flow of sterile solution precisely where needed.

Compact and easy to use, this bottle is ideal for first aid kits, workplaces, laboratories, and industrial settings where eye safety is critical.
