

# 6L Lithium Battery Fire Extinguisher

Internal Code: FFE039

The AVD mist fire suppression technology works to prevent the propagation of heat and effectively suppress the flames. This 6-liter fire extinguisher is ideal for combating lithium battery fires that occur within factory or office spaces. Cool the fire source, contain the blaze and protect against further damage with results that are unachievable with other agents. A necessity where high quantities of lithium battery devices are present.

Approx. Weight of Unit: 10.7kg

Handle: Metal - Red

Hose: Yes with Magnet

Base: Green PP

Bracket: Wall Hanger

Fire Rating: 13A

EN3 Certified: Yes

MED Approved: Yes

Propellant: Nitrogen (He Tracer)

Operating Pressure: 15BAR

Operating Temperature: +5°C +60°C

Approx. Discharge Time: 120s

Discharge Range: 1.5m - 2m

10.7kg - 197x267x525mm (Packed)

Units per Box: 1
