

## Product Specification Sheet

### 4.5kg DCP Fire Extinguisher Vehicle Bracket – Heavy Duty

#### Product Description:

This heavy-duty vehicle bracket is designed for secure mounting of 4.5kg DCP fire extinguishers in high-impact and off-road environments. Built with powder-coated steel, it offers a durable, corrosion-resistant solution for vehicles exposed to rough terrain, ensuring the extinguisher remains secure and accessible during transport.

#### Specifications:

- Compatible with: 4.5kg DCP fire extinguishers (Safequip Brand)
- Material: Powder-coated mild steel
- Finish: Rust-resistant black powder coating
- Mounting: Pre-drilled holes for bolt-on installation
- Retention System: Heavy-duty steel strap with quick-release latch
- Bracket Design: Cradle or wraparound (model dependent)
- Weight: Approx. 1.6kg
- Dimensions: 260mm (H) x 180mm (W) x 120mm (D)
- Application: Heavy-duty/off-road vehicle installation

#### Applications:

- Fleet and logistics vehicles
- Construction and mining equipment
- Trucks and off-road vehicles
- Agricultural machinery
- Marine and utility vehicles

#### Features and Benefits:

- Durable steel construction for rugged environments
- Corrosion-resistant coating extends product life
- Lockable strap for extinguisher security
- Compact design fits standard vehicle mounts
- Quick release access during emergencies

#### Packaging:

- Includes: 1 x Heavy-Duty Bracket for 4.5kg extinguisher
- Packaging Dimensions: Approx. 270mm x 190mm x 130mm
- Weight (packaged): ±1.8kg
