

Product Specification Sheet

Emergency Key Box – Steel

Product Description:

The Emergency Key Box – Steel is a secure and durable wall-mounted unit designed to store emergency keys in critical access points. Constructed from robust steel and typically featuring a break-glass or lift-up cover design, this box ensures keys are only accessed during emergencies. Ideal for industrial sites, commercial buildings, and fire safety installations.

Specifications:

- Material: Powder-coated steel
- Colour: Red (standard)
- Door Type: Hinged with glass break panel
- Mounting: Wall-mountable with pre-drilled holes
- Locking Mechanism: Basic key lock
- Dimensions: Approx. 120mm (H) x 120mm (W) x 40mm (D)
- Weight: $\pm 0.5\text{kg}$
