

2 x 10kg CO2 Trolley Fire Extinguisher

Internal Code: FFE111

This range of mobile fire extinguishers makes provision for those fire risks where hand-held extinguishers would be inadequate and a fixed engineered system would not be justified. CO2 trolleys are uniquely suited to hold CO2 fire extinguishers. It provides the user with effective mobile firefighting alternatives since it can be moved around easily.

Key Advantages

- Rapid fire control with minimum clean-up.
- Suitable for use where access is limited.
- Easily operated by one person.
