

Sterile Eye Pads – Soft Dressing for Eye Protection

Specification Sheet

Product Description:

Sterile Eye Pads are individually wrapped, hypoallergenic dressings designed to protect the eye in case of injury, post-surgery, or irritation. Soft, breathable, and gentle on the skin, these pads are ideal for absorbing discharge, shielding the eye from contaminants, or serving as a barrier dressing.

Suitable for inclusion in first aid kits, medical facilities, and workplace emergency stations.

Specifications:

Specification	Detail
Pad Type	Sterile, hypoallergenic eye pad
Size	Standard eye contour shape
Material	Soft non-woven outer layer with absorbent core
Packaging	Individually wrapped in sterile pouch
